September 28, 2022

Dear Parent/Guardian,

The Academy Education Foundation, Inc. is a parent-led organization whose mission is to enhance our students' experience by supporting various activities for the teachers, students, and parents of the Edison Academy Magnet School. The Foundation sponsors or co-sponsors and coordinates many events at the Academy such as the coffee with the principal breakfasts, the alumni panel presentation, the international dinner, and the freshman welcome picnic. We also offer scholarship opportunities to our seniors (up to \$250) each year and provide a graduating gift to each senior. Additionally, the Foundation offers our students the opportunity to apply for student club assistance program grants (up to \$250) to help further their clubs' missions. We will provide financial assistance to our school when larger purchases or other items outside the school's budget are needed. Last year we were able help to pay for a new sound system for the students and transport a piano into the school. All of these activities show how our small organization plays a big role in our school.

Our success is based on the generosity and involvement of all our parents. Please consider making an annual monetary donation to the Academy Education Foundation, so we can continue to sponsor and coordinate all our activities that are so vital to the Edison Academy Magnet School community. No contribution is too small.

Also, please remember our organization in any employer matching gift programs. Since we are a 501(C)(3) corporation, *donations to the Foundation are tax deductible.*

Thank you for your consideration to donate to our organization. We always greatly welcome your assistance and support.

Gratefully,  
Academy Education Foundation, Inc.
